Updates to General Variance Subcommittee

The purpose of this Nutrient Work Group subcommittee is to better define the process by which general variance treatment requirements (at §75-5-313, MCA) are to be reviewed and potentially updated when they become Department rules post-2016. From 2016 on, the review process will be applied every three years as part of DEQ's overall water quality standards review. The meeting is open to all interested parties. Please bring your ideas and concepts to the meeting and we will work towards refining the review process. The Subcommittee's output will be posted on the NWG website the next day so that others can review what has been done, and work completed will be discussed at the next full Nutrient Work Group meeting on May 29.

Meetings are scheduled for May 10, 2012 1:00-5:00pm in room 239/240 in the Metcalf Building in Helena and May 17, 2012, 10:30 a.m. - 4:00 p.m. in room 35, Metcalf Building, Helena.

Additions to the Nutrient Work Group Web Page (<http://deq.mt.gov/wqinfo/NutrientWorkGroup/default.mcpix>)
There has been a document added to the Nutrient Website at the bottom of the page called Demonstration of Substantial and Widespread Economic Impacts to Montana That Would Result if Base Numeric Nutrient Standards had to be Met in 2011/2012

The new subgroup meeting information has also been added to the webpage.

As always please refer to this website for meeting information, as this site provides:

- *meeting times and locations
- *meeting agendas
- *meeting summaries
- *presentations
- *Nutrient Work Group member contact information
- *Helpful and informative links on the subject matter
